**Q: My applicant has criminal records, that don't show on the report. Why is this?**

A: There are many reasons why the record may not appear in a report:

- The records are older than 7 years
- The records are recent and the conviction hasn't been released to the public record
- The records are out of a county or state that was not searched
- The records have been sealed or expunged
- The state or county does not report misdemeanor and felony convictions to the Multi-State database. To view current reporting jurisdictions, please [click here](#).
